

Mikasa®

Beijing Olympic Game Ball

NEW

MVA200

FiVB Official Game Ball

- . FiVB Approved
- . Debut in up-coming 2008 Beijing Olympic Games
- . Embossed & Dimple Surface

The magnified MVA200 surface

Tests conducted by **Mikasa Corporation** in close cooperation with leading Volleyball National Teams throughout the world, resulted in the following key features of the new MVA balls:

- . Balls fly more stable due dimple surface and reduced panels
- . Increased grip due to new dimple technology cover material
- . Increased visibility of the ball due to new panel-shape/design
- . Reduced rebound of the new ball = increased controllability
- . Reduced impact-power = increased softness of the new ball

The following high-performance models for competition- and training-use complete the MVA range

MVA300 ProModel

- . 8-Panels
- . Dimple Surface

MVA310 Delux Competition Performance

- . 8-Panels
- . Identical quality to MVA300

MVA330 Competition Performance

- . 8-Panels
- . Added soft-feeling
